Schedule for play

All senior members have indicated their preferences for playing days and time slots. These play lists have been shared with you. Despite the relaxations of the COVID measures, we want to regulate the crowds at the club in this way for the time being.

It is NOT the intention for you to come to the club on other days/times than as indicated on the list. If you do come on other days/times then listed you will NOT be able to play, regardless of whether there is space available or not.

If you want to play on another day/time please contact Brian van den Heuvel via penningmeester@ttvamstelveen.nl. Brian will check if there are any possibilities.

We play on a maximum of 6 tables with a maximum of 12 people at the same time. If there are more people according to the playlist, players will rotate if necessary. During the training for junior members we don't use limits for participants and tables.

Stick to all the rules!

If there are members who do not comply to the rules and we are checked by the municipality, the fine is at your own expense. TTV Amstelveen cannot be held liable.
